SIAMGAS AND PETROCHEMICALS PUBLIC COMPANY LIMITED

INTERIM CONSOLIDATED AND SEPARATE FINANCIAL INFORMATION (UNAUDITED)

31 MARCH 2020

AUDITOR'S REPORT ON THE REVIEW OF THE INTERIM FINANCIAL INFORMATION

To the Shareholders and the Board of Directors of Siamgas and Petrochemicals Public Company Limited

I have reviewed the interim consolidated financial information of Siamgas and Petrochemicals Public Company Limited and its subsidiaries, and the interim separate financial information of Siamgas and Petrochemicals Public Company Limited. These comprise the consolidated and separate statements of financial position as at 31 March 2020, and the related consolidated and separate statements of income, comprehensive income, changes in equity, and cash flows for the three-month period then ended, and the condensed notes to the interim financial information. Management is responsible for the preparation and presentation of this interim consolidated and separate financial information in accordance with Thai Accounting Standard 34, "Interim Financial Reporting". My responsibility is to express a conclusion on this interim consolidated and separate financial on my review.

Scope of review

I conducted my review in accordance with the Thai Standard on Review Engagements 2410, "Review of interim financial information performed by the independent auditor of the entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Thai Standards on Auditing and consequently does not enable me to obtain assurance that I would become aware of all significant matters that might be identified in an audit. Accordingly, I do not express an audit opinion.

Conclusion

Based on my review, nothing has come to my attention that causes me to believe that the accompanying interim consolidated and separate financial information is not prepared, in all material respects, in accordance with Thai Accounting Standard 34, "Interim Financial Reporting".

Emphasis of matter

I draw attention to note 4.2 of the interim financial information, which describes the accounting policies in relation to adopting the temporary exemptions announced by the Federation of Accounting Professions to relieve the impact from COVID-19 for the reporting periods ending between 1 January 2020 and 31 December 2020. My conclusion is not modified in respect to this matter.

PricewaterhouseCoopers ABAS Ltd.

1 General information

Siamgas and Petrochemicals Public Company Limited (the Company) is a public limited company that is listed on the Stock Exchange of Thailand and is incorporated and domiciled in Thailand. The address of the Company's registered office is 553 30th Floor, The Palladium Building, Ratchaprarop Road, Makkasan, Ratchathewi, Bangkok.

For reporting purposes, the Company and its subsidiaries are referred to as the "Group".

The Group has main business in trading petroleum and petrochemical, transportation services by land, ship and oil depots and port services.

This interim consolidated and separate financial information was authorised by the Board of Directors on 14 May 2020.

This interim consolidated and separate financial information has been reviewed, but not audited.

2 Significant events during the current period

Due to the outbreak of Coronavirus Disease 2019 ("COVID-19") has resulted in significant volatility in the global economy. Global public health and governmental authorities have taken extraordinary actions to contain and combat the outbreak and spread of COVID-19, including travel bans, quarantines and "stay-at-home" orders that have caused many individuals to substantially restrict their daily activities and many businesses to curtail or cease normal operations. The Group had assessed that for the three-month period ended 31 March 2020, there has been no significant impact to the Group.

The full impact of the COVID-19 pandemic on the Group's results of operations, financial condition and liquidity will depend on future developments, such as the ultimate duration and scope of the pandemic including the governments' measures on economic that might impact on the Group's customers and suppliers, how quickly normal economic conditions, operations and the demand for petroleum can resume.

3 Basis of preparation of interim financial information

The interim consolidated and separate financial information has been prepared in accordance with Thai Accounting Standard (TAS) 34, "Interim Financial Reporting" and other financial reporting requirements issued under the Securities and Exchange Act.

This interim financial information should be read in conjunction with the annual financial statements for the year ended 31 December 2019.

An English version of the interim consolidated and separate financial information has been prepared from the interim financial information that is in the Thai language. In the event of a conflict or a difference in interpretation between the two languages, the Thai language interim financial information shall prevail.

4 Accounting policies

The accounting policies used in the preparation of the interim financial information are consistent with those used in the annual financial statements for the year ended 31 December 2019 except the following:

- 4.1) the adoption of the new financial reporting standards and change in accounting policies described in Note 5; and
- 4.2) the following application of the temporary exemption guidance to relieve the impact from COVID-19 (temporary measures to relieve the impact from COIVD-19) announced by the Federation of Accounting Professions (TFAC) for the reporting periods ending between 1 January 2020 and 31 December 2020.

Reversal of deferred tax assets

The Group has chosen to exclude information related to COVID-19 which causes uncertainty when considering the sufficiency of future taxable profit for the purpose of assessing the utilisation of deductible temporary differences. Instead, the Group writes down the carrying amount of the deferred tax assets when it's not probable that the future taxable profit will be available for utilising the deductible temporary differences.

Impairment of assets

The Group has chosen to exclude information related to COVID-19 as an indication of the impairment of assets.

For goodwill that the Group has to test for impairment annually, the Group has chosen not to include information related to COVID-19 that potentially affect financial projections to consider for goodwill impairment testing.

Fair value measurements of land

The Group does not consider the information related to COVID-19 as an indicator of fair value remeasurement for land.

5 Adoption of new financial reporting standards and change in accounting policies

5.1 Adoption of new financial reporting standards

The Group has adopted financial reporting standards relating to financial instruments (TAS 32, TFRS 7 and TFRS 9) and leases standard (TFRS 16) since 1 January 2020, The Group recognised the cumulative impact from the adoption of the financial reporting standards on 1 January 2020 and has not restated comparatives for the 2019 reporting period, as alternatives permitted in these financial reporting standards. The reclassifications and adjustments arising from the new requirements are therefore recognised in the opening statement of financial position as of 1 January 2020.

The following tables show the adjustments made to the amounts recognised in each line item in the statement of financial position upon adoption of the financial reporting standards relate to financial instruments (TAS 32 and TFRS 9) and leases standard (TFRS 16):

The adoption of new financial reporting standards and the change in accounting policies above, there is no impact on segment disclosure of the Group.

a) Impact of the adoption financial reporting standards relating to financial instruments (TAS 32 and TFRS 9)

The Group has adopted the new financial reporting standards relating to financial instruments from 1 January 2020 by recognising the cumulative impacts on the date of initial application to the brought forward retaining earnings (the modified retrospective approach).

The adoption of the new financial reporting standards on financial instruments mainly affects the Group's accounting treatment as follows:

Measurements of derivatives

Derivatives are initially recognised at fair value on the date a derivative contract is entered and are subsequently measured to their fair value at the end of each reporting period. The changes in the fair value is recognised to profit or loss.

As of 1 January 2020, the Group has recognised the derivative contracts that not recognised previously. At effective of the new standard, the derivatives are measured at fair value through profit or loss. The Group recognised the corresponding adjustment of Baht 51 million in the consolidated statement of financial position and Baht 2 million in the separate statement of financial position.

Classification and measurement

As at 1 January 2020 (the date of initial application), the Group's management assessed the business model using in managing assets and liabilities of the Group and classified the financial assets and liabilities are as follows;

| | Consolidation financial information | | | | | |
|---|--|---|-----------------------------------|-----------------------|--|--|
| Financial assets as at 1 January 2020 | Fair value through profit or loss (FVPL) Million Baht | Fair value - Derivatives Million Baht | Amortised cost Million Baht | Total Million Baht | | |

b) Impact of the adoption financial reporting standards relating to lease (TFRS16)

On adoption of TFRS 16, the Group recognised lease liabilities in relation to leases which had previously been classified as 'operating leases' under the principles of TAS 17 Leases. These liabilities were measured at the present value of the remaining lease payments, discounted using the lessee's incremental borrowing rate as of 1 January 2020. The weighted average lessee's incremental borrowing rate applied to the lease liabilities were 2.25% to 4.65%.

Right-of-use assets were measured at the amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to that lease recognised in the statement of financial position as at 31 December 2019.

| _ | Consolidated financial information Million Baht | Separate financial information Million Baht |
|---|--|--|
| Operating lease commitments disclosed as at 31 December 2019 (Less): Discounted using the lessee's incremental | 778 | 165 |
| borrowing rate of at the date of initial application | (185) | (29) |
| (Less): Short-term leases recognised on a straight-line basis as expense | (1) | - |
| (Less): Service portion included in leases | (181) | - |
| Add: Adjustments as a result of a different treatment of extension and termination options Add: Adjustments relating to changes in the rate affecting | 154 | - |
| Add: Adjustments relating to changes in the rate affecting variable payments | (2) | - |
| Lease liability recognised as at 1 January 2020 | 563 | 136 |
| Lease liabilities - Current portion | 62 | 26 |
| Lease liabilities - Non-current portion | 501 | 110 |

For leases previously classified as finance leases, the Group recognised the carrying amount of the lease asset and lease liability immediately before transition as the carrying amount of the right of use asset and the lease liability at the date of initial application on 1 January 2020. The measurement principles of TFRS 16 are only applied after that date. The recognised right-of-use assets relate to the following types of assets:

| | financi | Consolidated al information | Separat financial informatio | | |
|--|----------------------------------|-----------------------------------|----------------------------------|-----------------------------------|--|
| | 31 March 2020 Million Baht | 1 January 2020 Million Baht | 31 March 2020 Million Baht | 1 January 2020 Million Baht | |
| Land Buildings Equipment Vehicles | 973 76 15 3 | 959 87 17 4 | 198 24 2 - | 209 28 3 | |
| Total right-of-use assets | 1,067 | 1,067 | 224 | 240 | |

Practical expedients applied

In applying TFRS 16 for the first time for the leases before 1 January 2020, the group has used the following practical expedients permitted by the standard:

- the use of a single discount rate to a portfolio of leases with reasonably similar characteristics
- reliance on previous assessments on whether leases are onerous
- the accounting for operating leases with a remaining lease term of less than 12 months as at 1 January 2020 as short-term leases
- the exclusion of initial direct costs for the measurement of the right-of-use asset at the date of initial application
- the use of hindsight in determining the lease term where the contract contains options to extend or terminate the lease, and
- elect not to reassess whether a contract is, or contains a lease as defined under TFRS 16 at the date of initial application but relied on its assessment made applying TAS 17 and TFRIC 4 Determining whether an arrangement contains a lease.

5.2 Changes in accounting policies from adoption of the financial reporting standards related to financial instruments and leases

a) Financial instruments

Financial assets

Classification and initial measurements

The Group classifies its financial assets as follows:

- those to be measured subsequently at fair value either through profit or loss (FVPL) or through other comprehensive income (FVOCI).
- those to be measured at amortised cost.

The Group initially recognises a financial asset on trade date at its fair value plus transaction costs that are directly attributable to the acquisition of the financial asset, except financial assets that are measured at FVPL whose transaction costs are expensed in profit or loss.

The Group considers the financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Subsequent measurements

Financial assets - Debt instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories:

- Amortised cost: Assets that are held for collection of contractual cash flows that represent solely payments of principal and interest (SPPI) are measured at amortised cost. Interest income is included in other income using the effective interest method. Any gain or loss on derecognition is presented in other gains/(losses), together with foreign exchange gains and losses. Impairment losses are presented as separate line item.
- FVOCI: Assets that are held for collection of contractual cash flows that represent SPPI and for selling the financial assets are measured at FVOCI. Movements in the carrying amount are taken through OCI, except impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in profit or loss. Interest revenue is included in other income. Foreign exchange gains and losses are presented in other gains/(losses). Impairment losses are presented as separate line item. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified to profit or loss.
- FVPL: Assets that do not meet the criteria for amortised cost and FVOCI are measured at FVPL. A gain or loss on subsequent measurement is presented in gains (losses) from derivatives.

The Group reclassifies debt instruments only when its business model for managing those assets changes.

Impairment

The Group assesses expected credit loss on a forward looking basis for its financial assets carried at FVOCI and at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk, except trade receivables which the Group applies the simplified approach in determining its expected credit loss.

Derivatives

Derivatives are initially recognises at fair value on the date a derivative contract is entered into and are subsequently measured to their fair value at the end of each reporting period. The changes in the fair value is recognised to gains (losses) from derivatives.

b) Leases

The group leases land, buildings, equipment and vehicles which most of the rental contracts are typically made for fixed periods of 2 years to 28 years but may have extension options. Before 2020 financial year, leases of land, buildings, equipment and vehicles were classified as either finance or operating leases. Payments made under operating leases (net of any incentives received from the lessor) were charged to profit or loss on a straight-line basis over the period of the lease.

Leases are recognised as a right-of-use assets and a corresponding liability at the date at which the leased asset is available for use by the Group. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The right-of-use asset is depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis, as follow:

| | Number of years |
|-----------|-----------------|
| Land | 2 - 26 Years |
| Buildings | 2 - 28 Years |
| Equipment | 2 - 5 Years |
| Vehicles | 2 - 3 Years |

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments:

- fixed payments (including in-substance fixed payments), less any lease incentives receivable
- variable lease payment that are based on an index or a rate
- amounts expected to be payable by the lessee under residual value guarantees
- the exercise price of a purchase option if the lessee is reasonably certain to exercise that option, and
- payments of penalties for terminating the lease, if the lease term reflects the lessee exercising that option.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be determined, the lessee's incremental borrowing rate is used, being the rate that the lessee would have to pay to borrow the funds necessary to obtain an asset of similar value in a similar economic environment with similar terms and conditions.

Right-of-use assets are measured at cost comprising of the amount of the initial measurement of lease liability include any lease payments made at or before the commencement date less any lease incentives received, direct costs and restoration costs. Payments associated with short-term leases and leases of low-value assets are recognised on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less. Low-value assets comprise of office equipment.

6 Estimates

The preparation of interim financial information requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing this interim financial information, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the financial statements for the year ended 31 December 2019.

Fair value

The following table presents financial assets and liabilities that are measured at fair value in each level including fair value of financial assets and financial liabilities. The table exclude financial assets and liabilities measured at amortised cost where their carrying value approximated fair value.

Fair value of following financial assets and financial liabilities measured at amortised cost where their carrying value approximated fair value are as follows;

Consolidated financial information

Financial assets

- Cash and cash equivalents
- Deposits at financial institutions used as collateral
- Trade and other receivables
- Long-term loans

Financial liabilities

- Short-term loan from financial institutions
- Trade and other payables
- Lease liabilities
- Other current liabilities
- Long-term loans from related parties
- Cylinder deposits

Valuation techniques used to measure fair value level 2

Separate financial information

Financial assets

- Cash and cash equivalents
- Deposits at financial institutions used as collateral
- Trade and other receivables
- Long-term loans

Financial liabilities

- Short-term loan from financial institutions
- Trade and other payables
- Lease liabilities
- Short-term loans from related parties
- Other current liabilities
- Cylinder deposits

valuation techniques used to measure fail value level 2

Valuation techniques used to measure fair value level 2 for derivatives are as follows:

Fair value of interest rate swaps agreements is determined using forward interests extracted from observable yield curves.
 Fair value of cross currency and interest rate swap contracts are determined using forward interests extracted from observable yield curves and using forward exchange rates that are quoted in an active market.

Fair value of debt instruments is determined from discounted contractual cash flows where discount rate quoted in an active market.

8 Segment information

- · ·

Segment information is presented in respect of the Group's operating segments which are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker.

The operating segments of the Group are as follows:

| Tropical Gas Pte. Ltd. | 100.00 | 100.00 |
| Siam Tank Terminal Co., Ltd. ⁽²⁾ (Formerly as "Thai Public Port Company Limited") | 99.69 | 71.20 |

⁽²⁾ During 2019, Siam LNG Company Limited (SLNG), a subsidiary of the Company, entered into several share purchase agreements with former shareholders to acquire Thai Public Port Company Limited ("TPP"). TPP businesses are the oil depots and ports services. Under share purchase agreements, SLNG would own 104,668,735 shares, representing 99.69% of the registered and paid-up capital of TPP. These shares would be gradually transferred to SLNG during 2019 till early 2020. On 24 February 2020, TPP changed the name to Siam Tank Terminal Company Limited (STT).

The shares have been transferred to SLNG on 24 September 2019, 16 October 2019 and 26 November 2019 which accounted for 71.20% of the registered and paid-up capital at a price of Baht 2,384 million. SLNG paid Baht 399 million and requested the Company to issue promissory notes amounting to Baht 1,985 million on behalf of SLNG to settle the payables. On 21 January 2020, the Company has already paid Baht 1,185 million promissory notes and the remaining Baht 800 million promissory note dues on 15 October 2020 (Note 9).

The details of consideration paid to business acquisition are as follows:

| | Million Baht |
|--------------------|--------------|
| Cash | 399 |
| Promissory notes | 1,985 |
| Consideration paid | 2,384 |

The details of consideration paid and the estimated fair value of the net assets received at the acquisition date are as follows:

| | Consolidated financial information Million Baht |
|--|---|
| The estimated fair value of net assets received Property, plant and equipment, net Trade and other payables Deferred income tax liabilities Others | 1,875 (52) (172) 1 |
| Total the estimated fair value of net assets Less Non-controlling interests (28.80%) | 1,652 (476) |
| Total estimated fair value of identifiable net assets (71.20%) Goodwill (provisional amount) | 1,176 1,208 |
| Consideration paid | 2,384 |

The Group has completely measured fair value of assets and liabilities from business acquisition including its property, plant and equipment at amount of Baht 1,875 million by using an independent external valuer except other intangible assets which still in the valuation process. The difference between the consideration paid and the net assets acquired above is shown as goodwill (provisional amount) in the consolidated financial information. When the fair value appraisal of other intangible assets is completed, the Group will revise this goodwill (provisional amount) later by completing the valuation within 12 months from the business acquisition date.

On 21 January 2020, SLNG acquired additional 28.49% of the registered and paid-up capital of STT for Baht 932 million. SLNG has already made an advance payment of Baht 124 million for additional share purchase in August 2019 and has paid the remaining amount of Baht 808 million on 21 January 2020. The difference between the consideration paid to STT's former shareholders and the decrease in the carrying amount of non-controlling interest of STT of Baht 441 million has been shown as deficit from changes in shareholding in subsidiary (Note 22). This can be summarised as follows:

| | Consolidated financial information Million Baht |
|---|---|
| Carrying amount of non-controlling interests before purchased additional shares | 497 |
| Carrying amount of non-controlling interests after purchased additional shares | (6) |
| Identified carrying amount of non-controlling interests acquired | 491 |
| Consideration paid to non-controlling interests | (932) |
| Deficit from the change in the ownership interests in a subsidiary | (441) |

As at 31 March 2020, the Group receives all shares transferred under the above share purchase agreement. As a result, the Group's ownership interest is 99.69% of STT's registered and paid-up capital.

The reconciliation of cash from investments in subsidiaries is shown as follows:
