BUSINESS OVERVIEW

Liquefied Petroleum Gas (LPG) is widely used and is considered to be of major importance in daily life. It is called a “green” fuel as it decreases exhaust emissions and thus is environment-friendly. Bearing in mind that liquefied Petroleum Gas consumption has witnessed a steady growth each year, the Executives of the Company, with more than 50 years of experience are keenly attentive to the fuel’s vital role. As the leader in the field, the Company affirms its commitment towards incessant development to respond to the growing demand and the expanding market. >>>

>>>

The focus lies on ensuring its stamina in distribution and services are recognized nationwide. With aim to expand several LPG terminals, depots and filling stations in different areas of the country. Safety, reliability and quality assurance are like blood through its veins as customer satisfaction is the top priority. The Company also provides safety, technical and engineering consultation services for customers of all levels.

Life is a never-ending journey, so is the Company’s plight to success. Overseas investment has been given a priority mission in recent years as s strategy to strengthen itself and its subsidiaries’ business base.
