Subject Report on Information Disclosure and Solution Regarding Securities Mark “CF” Sign via Public Presentation

To: President  
The Stock Exchange of Thailand

Siamgas and Petrochemicals Public Company Limited ( “the Company”) held a Public Presentation (C-Sign Public Presentation) on November 24, 2025 to inform the investors and relevant stakeholders regarding the Company’s securities being marked with a “CF” sign (Caution Free Float). As of the record date for determining the shareholders entitled to receive dividend, which was on March 14, 2025, the Company had 5,354 minority shareholders. However, the proportion of minority shareholders was 13.48% of the paid-up capital. This does not comply with the Stock Exchange of Thailand (“SET”) regulation, which stipulates that a listed company must have at least 150 minority shareholders collectively holding not less than 15% of the paid-up capital.

In this regard, the Company would like to summarize the remedial measure as follows:

**Guideline for Remedial Measure**

At present, the Company is in the process of discussions with strategic shareholders to explore solutions for removing the “CF-sign” status. The approach under consideration involves restructuring the Company’s shareholding structure to ensure appropriateness and compliance with relevant regulations.

**Timeline for Resolution**

In accordance with the rules and regulations of SET, the Company is required to resolve the CF-sign status within 12 months from the date of its announcement. The Company has formulated a continuous plan and will report progress to investors and shareholders on a quarterly basis until the status is fully resolved in compliance with the SET’s requirements.

Please be informed accordingly,

Yours sincerely,  
*Jintana Kingkaew*  
(Mrs. Jintana Kingkaew)  
Deputy Managing Director/CFO
